

### **Adlake No. 1263 Train Order Lamp With No. 27 Adapter**

Aluminum castings will not rust. Light weight reduces handling and installation costs.

Two 5 $\frac{3}{8}$ " clear cover glasses, one adjustable through 20 degrees.

Two 3 $\frac{3}{4}$ " Mangin Mirrors, independently adjustable, both horizontally and vertically.

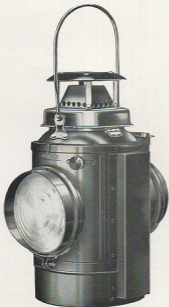

AAR terminal posts located near top to facilitate wiring. Bakelite insulation throughout.

Focused at factory for accurately based lamps.

Can also be furnished with socket for 110 or low voltage and optical lenses—no mirrors.

No. 27 Adapter can also be used to convert oil burning lamps.

**ADVISE VOLTS, WATTS, OR AMPERES, AND LAMP BULB TO BE USED, SO THAT WE CAN ACCURATELY FOCUS LAMPS BEFORE SHIPMENT.**

### **Adlake Oil Burning Train Order Lamps**

No. 282 lamp with one lens adjustable.

No. 313 lamp with both lenses adjustable.

Adlake Non-Sweating Balanced Draft Ventilation and Windproof Door as described in Bulletin B-31.

AAR specifications apply to mounting socket, general dimensions, and parts such as founts, burner, and lens assembly.
